

## CCMS Parents and Guardians -

If you're concerned about what your child is doing on their school Chromebook, GoGuardian Parent is now available to you.

You will have the ability to:

1. View the Top 5 summary of student browsing - apps, extensions, documents, and websites visited.
2. View the Teacher interventions - showing how often teachers locked screens, blocked sites, and opened and closed browser tabs on their students' classroom devices.
3. View the last 30-days of websites, videos, documents, apps, and extensions.
4. Block websites on school-issued devices during out-of-school hours.
5. Pause internet access on school-issued devices during out-of-school hours, either on-demand or at a scheduled time.

Our district's configuration settings may affect the times at which information is visible.

To get started, go to <https://www.goguardian.com/parent-app>. Simply use your e-mail address as listed in IC and GoGuardian will send you a code to log in.

Please contact us if you need any help.
